This operation will analyse and compare EU and Turkish transport legislation at a macro level with a horizontal and cross-sectoral approach according to definite themes. The themes will cover, but not be limited to, transport infrastructure, competition rules and state intervention, market operation, market monitoring and access, transport prices and terms, structural harmonisation, safety and security, social conditions and mode specific issues. Against this backdrop, the operation will contribute to Action 4 (Acquis Alignment and EU integration) in the Sectoral Operational Programme for Transport and its first result which is 'transport legislation further harmonised with the EU acquis and institutional and administrative capacity needed to assume the obligations of membership under acquis Chapters 14 and 21 further strengthened'. Even though the negotiations under Chapter 14 is suspended, efforts to enhance EU-Turkey technical cooperation in the transport sector are maintained through legislative alignment and financial cooperation.

Furthermore, the operation will provide assistance to support policy development, the exchange of experience, and the creation of networks with the EU Institutions. This will facilitate and allow a smooth transition in the path towards the integration into Single European Transport Area.
