## SELECTION CRITERIA

### 16. Selection criteria

#### Capacity-providing entities

An economic operator (i.e. candidate or tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. **Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document.** Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

The following selection criteria will be applied to candidates. In the case of requests to participate submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The candidate shall not use previous experience which caused breach of contract and termination by a contracting authority as a reference for selection criteria.

#### **Lot 1 – Electric bus and charging station:**

The selection criteria for tenderers to Lot 1 are as follows:

- 1) Economic and financial capacity** (based on item 3 of the request to participate form, or on item 3 of supply tender form). In case of candidate being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed. Criteria for legal and natural person:
  - a. The average annual turnover of the tenderer must exceed the financial proposal of the tender.
  - b. If a tenderer is to be awarded several Lots, the average annual turnover must exceed the cumulative amount of the financial proposals for all those Lots.
  
- 2) Professional capacity** (based on items 4 and 5 of the request to participate form for service contracts and on items 4 and 5 of the tender form for supply contracts). The reference period which will be taken into account will be the last three years preceding the submission deadline. Criteria for legal and natural person:
  - a. At least 10 (ten) staff currently work for the tenderer in fields related to each lot to which the tenderer applies.
  - b. If a tenderer is to be awarded several Lots, the staff number must exceed the cumulative staff number for all those Lots.

**3) Technical capacity** (based on items 5 and 6 of the request to participate form for service contracts and on items 5 and 6 of the tender form for supply contracts). The reference period which will be taken into account will be the last three years from submission deadline.

The tenderer has delivered supplies (proportion carried out by the candidate) under at least one contract with budget of at least **EUR 9.000.000,00** or two contracts with a budget of at least **EUR 4.500.000,00 each** in a supply of electric buses implemented during the reference period.

This means that the contract the candidate refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a candidate has implemented the project in a consortium, the percentage that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided/supplies delivered if the selection criteria relating to the pertinence of the experience have been used.

The tenderer has delivered supplies (proportion carried out by the candidate) under at least one contract with a budget of at least **EUR 200.000,00** or at least two contracts with a budget of at least **EUR 100.000,00 each** in supply of electric bicycle or bicycle sharing system implemented during the reference period.

This means that the contract the candidate refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to projects completed

within the reference period (although started earlier) or to projects not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a candidate has implemented the project in a consortium, the percentage that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided/supplies delivered if the selection criteria relating to the pertinence of the experience have been used.
